DESIGN + PRACTICE

RESEARCH + INNOVATION

EDUCATION + PROCESS

Answers

DESIGN THINKING

What does it mean to you?
And from the architect's perspective?

APPLICATION AT THE HEALTHCARE INTERFACE

For medicine across micro through macro scales?
In your care processes/care models?

FUTURE MOTIVATORS FOR CHANGE

Systems, technologies, and design innovation
Patient, clinician, and research outcomes

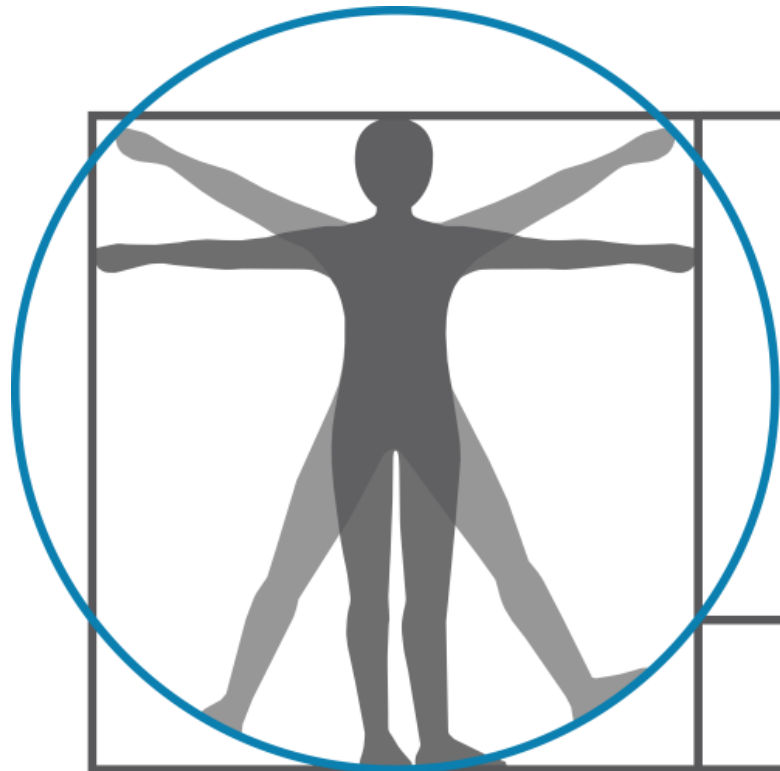

Your Priorities!

A stylized graphic on the left side of the slide. It features a dark grey silhouette of a person's arm and hand, with the hand pointing towards the right. A thick blue curved line starts from the top left and arcs across the middle of the slide, passing behind the hand graphic. The background of the slide is white, with a red rectangular box at the top right containing the main heading.
